

Track visitors, parents, students and contractors with the integrated **Xuno Kiosk**

- The Xuno Kiosk allows students, parents, visitors, contractors and staff to sign in and out fast – **no more paper sign-in books** and plastic badges.
- The kiosk is **fully integrated** into the Xuno suite, so anything entered into the kiosk is available in **real-time in Xuno**.
- Automatically **print visitor passes** and/or send QR passes to visitors via SMS or Xuno App.
- Passes can be printed for **late arrivals** to hand to a classroom teacher. Late arrivals are **displayed immediately** in the teacher's attendance page.
- **Keep track** of who is in your school, their role and work, and get instant access to **emergency evacuation reports**.
- Create **barcodes or QR codes** for your student and staff ID cards or just have students search for their name.
- Add **COVID** and **Child Safe** information onto the kiosk for easy access by staff, parents, contractors and visitors.
- Visitors with **WWCC** numbers are **verified in real time**.
- **Contactless technology** (patent pending) allows you to sign in or out on your mobile phone and simply present a Xuno QR code on your phone to the kiosk.
- Choose from **different size kiosks** to meet your needs - floor standing or desktop, or **BYO** hardware (iPad, optional stand and optional printer).
